BLUE LINE PROJECT 2018

ON CLIMATE CHANGE

BLUE LINE PROJECT Kihei (Maui)

April 21, 2018 9:00 a.m. - 11:00 a.m.

Thank you for taking part in the Blue Line Project 2018! You will be joined by thousands of students and community members in drawing “blue lines” in chalk to mark the sea level rise exposure area around Hawaii. Together, we will show the world that Hawaii is concerned about the future of the islands we call home and is committed to taking action on climate.

DRAW THE LINE

BLUE LINE PROJECT 2018

ON CLIMATE CHANGE

Below is information about the event on **April 21**:

Check in: Check in starts at **8:30 a.m.** at each location. Please assemble at your designated command centers!

Where: **Kihei Public Library - Parking Lot.** Once checked in, you will be instructed where to “draw the line” with chalk!

Attire: Be comfortable and be prepared! If you are a student or teacher, please feel free to represent your school or district by wearing your school colors/shirts.

Signs: We encourage you to bring your own signs and to be creative with your message about climate change! You will have the opportunity to share your message with the community during a sign-waving portion of the event. However, we have limited supply for making signs on site.

Chalk: Blue Planet will supply blue chalk for all volunteers and students to use. Please follow instructions of each Blue Line Captain as safety is number our top priority.

Weather: We’re hoping for sunny skies that Saturday — currently, it looks like rain! Please bring sunscreen, skin protection and outwear in case of a change in weather. Each Command Center will determine if there should be any change in our plans.

Water: Please bring your own reusable water bottles.

Social Media: We encourage all participants to take as many photos and videos during the project. Spreading awareness is the best outcome of the days’ activities. Whether it’s Facebook, Facebook Live, Instagram, Twitter and any other platform, we want to encourage you to tell the world what Hawaii is doing!
